C. Brief Term of Reference of Consultancy Services

I. Background:

Foot ware industry is one of the booming industry that can make a significant contribution to the economic development of Nepal. The field is believed to have evolved along with the development of human civilization. The shoe industry in Nepal, especially the leather shoe business, has a long history. The footwear industry is one of the many options for earning income. Skill development training is indispensable for the production of quality shoes. The footwear industry is one of the fastest growing industries in the world. At present, Nepal has the capacity to produce all types of footwear. Due to lack of skilled manpower in this field, it has not been able to operate at full capacity. Training is an indispensable necessity for the production of skilled manpower. The industry has been established to promote exports, reduce import and provides employment by the production of quality foot ware products. Nepali leather footwear industry, which is a small and home-based industry, has been successful in winning the hearts of consumers for the past few years.
